OFFICE OF
WATER

OCT 11 1985

RE: File Number 11-018.00-AEB-84

Dear Mr. Wyke:

Based on information submitted, the coating listed below is acceptable for surfaces which contact potable water when used within the conditions stated below.

PRODUCT: Penetron

CONDITIONS:

1. The product is properly applied according to the manufacturer's specifications.
2. The product continues to meet the specifications of good manufacturing practices.
3. After complete curing, the coating is thoroughly rinsed with potable water prior to being placed in service.

We would not anticipate any adverse health effects resulting from such use of this product, assuming the product continues to meet the supplied specifications.

This opinion is granted on an interim basis only. EPA is in the process of establishing an alternative advisory program for drinking water additives as described in the Federal Register, Vol. 49, No. 97, 21003-8, May 17, 1984. When the new program is in place, all existing advisories may be periodically reviewed.

Our opinion concerning the safety of the product does not constitute an endorsement, nor does it relate to product effectiveness for the intended use. If this letter is to be used in any way, we require it be quoted in its entirety.

Sincerely,

A handwritten signature in black ink, appearing to read "Arthur H. Perler".
